

HE365

Whole-house Powered Humidifier

Honeywell

Dry air contributes to an uncomfortable home — not to mention the potential damage and cracking of hardwood flooring and woodwork. When installed into your home's heating and cooling system, a Honeywell HE365 Whole-house Powered Humidifier works to automatically maintain a proper humidity level throughout your home.

Plus, adding whole-house humidification helps save on energy bills — you can turn down the thermostat because you'll be more comfortable.

HE365 Whole-house Powered Humidifier

MOISTURIZE FOR COMPLETE COMFORT.

Peace of Mind —

Moisturized air helps prevent dryness to increase comfort and protect woodwork throughout your entire home.

Humidify Automatically —

Powered to run when your heating and cooling system cycles.

Up To 18 Gallons Of Water —

Evaporated into the home per day.

Simple Maintenance —

Replacement Honeywell Humidifier pads can be purchased from and/or replaced by your HVAC contractor, and also fit Aprilaire® Humidifiers.

* Aprilaire is a registered trademark of Research Products, Inc.

Exclusive AgION® Humidifier Pads —

Feature an anti-microbial coating which helps inhibit the growth of molds, bacteria, fungus and algae on the pads.

PerfectFLO® Distribution Tray —

Helps ensure that moisture is distributed evenly.
