

Indoor Air Quality Product Announcement

June 26, 2012

Introducing the Carbon Clean 16™ Media Air Cleaner

Combines MERV 16 filtration with a carbon coated fiber matrix

New ozone and odor reduction capabilities for the industry's highest efficiency air filter

#1 rated professionally installed, whole-home filtration system three consecutive times!*

- Replaces the HC16 with NO changes to existing Model Numbers or Catalog Numbers
- 50% first-pass reduction of ozone, unlike electrostatic air cleaners that can elevate indoor ozone, a known lung irritant
- Hospital inpatient care/general surgery level filtration
- Removes over 95% of (sub-micron) particles down to .3 microns
- Removes over 90% of ultra-fine particles down to .01 micron, including viruses and bacteria
- Low initial pressure drop down to .25**

Availability will vary by location starting July 2012

<u>Model Number</u>	<u>Filter Dimensions</u>	<u>Catalog Number</u>
HCF20-16	20 x 25 x 5	X6675
HCF16-16	16 x 25 x 5	X6672
HCF14-16	20 x 20 x 5	X7935
