

“Finally, a low cost dual fuel kit that’s contractor friendly!”

PATENT PENDING

SMART KIT™

Smart Kit™ is the most versatile and easy-to-install dual fuel kit on the market. *Smart Kit*™ is compatible with single and multi-stage heat pumps. The *Smart Kit*™ includes snap track and double-back tape for convenient installation, along with “Quiet” relay technology, LED auxiliary heat indication, and easy-to-read, screw terminals. *Smart Kit*™ includes an adjustable outdoor thermostat to provide compressor lockout. An optional adjustable discharge air sensor is also available to temper the air during defrost cycle. *Smart Kit*™ works with both O and B heat pump reversing valves and has a five (5) year warranty.
