

Aroma Diffuser User Manual

● SPECIFICATION

Product Size	(L)123mm*(W)123mm*(H)126mm
Net Weight	About 0.6 KG
Voltage	AC 100 -240V / DC 24V
Power Output	About 12W
Working Mode	Continuous spray/Intermittent spray (30S ON / 30S OFF)
Capacity	200ml
Mist Amount	20-30ml/h
Material	PP+ABS
Ultrasonic Rate	2.4MHz
Accessories	AC power adaptor, Measuring cup, User manual

This Aroma Diffuser uses the ultrasonic waves to instantly vaporize water and essential oil in the tank, to produce a cool, fresh fragrant mist.

● OPERATION

1. Please put the product upside, remove the upper cover. (FIG 1)
2. Please connect the AC adaptor to the DC jack on the base. (FIG 2)
3. Using the measuring cup, fill the water tank with tap water up to the max water level line. Do not overfill or mist output may be low. Do not use hot water. Please never fill in water during operation. Drop essential oil into water tank vertically. (About 0.1ML-0.15ML per 100ML water) (FIG 3)
4. Replace the upper cover onto the base. (FIG 4)

Attention: You must cover the upper cover when you want to use the product.

5. Connect the AC adaptor with power supply socket.
6. Touch the key 1st time, the machine start working with mist and warm light until waterless;
Touch the key 2nd time, the machine enter into Intermittent Mode: 30 seconds ON and 30 seconds OFF, the light is always ON. It works until waterless;
Touch the key 3rd time, both mist and light will OFF. (FIG 5)
At any time, keep touching this key for 2 seconds to switch mist and light off.

● ATTENTION

If you do not use it for a long time, please drain out the water from tank water, dry and then keep it well.

The diffuser will auto shut off when unit is out of water.

The diffuser will not work without water.

The amount and intensity of mist produced will vary, but this is not unusual and should not be considered as a fault.

Factors that affect this include water type, humidity, temperature, air currents.

We recommend that you clean it every time you change oils.

Oils are corrosive, and over time, they build up on the atomizing plate.

● ACCIDENTAL LEAKAGE

In the event of the unit being knocked over or tipped during usage, please follow the instructions as below:

1. Unplug the unit and remove the cover.
2. Pour out any remaining water out of the water tank.
3. Shake the unit gently to drain any water inside the mechanism, and then allow drying for at least 24 hours.

● MAINTENANCE

After using 5-6 times, or 3-5 days, please clean the product as below.

1. Unplug the unit from power supply and remove the cover.
2. Pour out any remaining water out from the "DRAIN SIDE" of the water tank.
3. Add some warm water into tank and mix with neutral detergent, wash with a cleaning cloth.
4. If you find any dirt in the air outlet, please remove the container cover and clean it.
5. Never use other acids, enzymes or detergents, as this may risk poisonous gas to be created or cause malfunction.

● DISCLAIMER

To avoid any damage to the product, please make sure instructions are as below:
