

Run, Rinse, and Reuse.

Taking care of your Filti Washable Filter is as easy as 1, 2, 3.

STEP 1: Spray

Remove Filti from furnace, spray dirty side thoroughly with soapy water. Let soak for 1 minute.

STEP 2: Rinse

Rinse water through Filti in the opposite direction of the air flow indicator arrows. Let dry completely.

STEP 3: Reuse

After dry, slide Filti back in your furnace ensuring air flow indicators are pointed in the same direction the air flows.
