

Cabin Air Filtration Product

**MicronAir® No. GM05189P**

**1**

☞ Open the glove box and remove any contents. Compress the sides of the glove box until the guides come out of their tracks. This will allow the glove box to drop down to expose the filter housing.

**2**

☞ Open the filter access door by releasing the latch and flipping it down to expose the filter.

**3**

☞ Remove the used filter by pulling straight out and replace with the micronAir® cabin air filter. Note: the air flow arrow should point in the down direction. Close the filter access door and raise the glove box by squeezing the sides while lifting it into position.

**This micronAir® Cabin Filter fits:  
Pontiac G5, Chevy Cobalt, HHR, and Saturn Ion**

**Get in and breathe easy.**

The vehicle manufacturer recommends that the filter be changed every year or 15,000 miles.  
Engineered for Original Equipment Manufacturer Specifications.
