

Champ-HR-3

Clean, great tasting water at your fingertips.

This *High Recovery* unit utilizes a non-electric energy recovery device, called a permeate pump, which dramatically improves the efficiency of an R/O system. This unit will improve recovery by as much as 400% and reduces waste water by 80%. The Champ HR-3 also prevents TDS creep, increases the life of the membrane and fills tanks four times faster.

Improves Recovery Rate By As Much As 400%

Because coffee and tea are 99% water, they are no better than the water which they are made.

Imagine better tasting coffee, tea and clearer ice cubes. Your pets and plants will love it too.
