

Before installing water filter

- 1 Take out the top shelf and move it to the lower part. Remove the lamp cover by pressing the protrusion under the cover and pulling the cover to the front.

Replacement of water filter

- 3 While holding the lower part of the filter, turn it counterclockwise (1) by 90 degrees and pull it down.

NOTE : Check that the guideline and the loosening indication line are aligned.

Installing water filter

- 2 Remove the filter substitute cap (2) by turning it counterclockwise (1) by 90 degrees and pulling it down. Remove the red cap (3) from the filter and attach the sticker (1). Insert the upper part of the filter and fasten it by turning it clockwise by 90 degrees.

NOTE : Check that the guideline and the fastening indication line are aligned.

After installing water filter

- 4 Replace the lamp cover and the top shelf. In order to clean the water filter system, drain water for about 5 min.
