

# UNIQUE SOLUTIONS

## A register designed to provide individual room temperature control

### AZR™ AUTOMATIC ZONE REGISTER

The AZR™ Automatic Zone Register is a low cost, automatic zone register designed to improve temperature control and lower fuel bills. The AZR™ can be used as a stand-alone register with a wall mounted thermostat to eliminate over heating and over cooling in bonus rooms, room additions, seldom used rooms and basements.

#### BENEFITS:

- Solves over heating and over cooling problems
- Controls bedroom temperature for better sleeping
- Provides a low cost solution to controlling a room addition

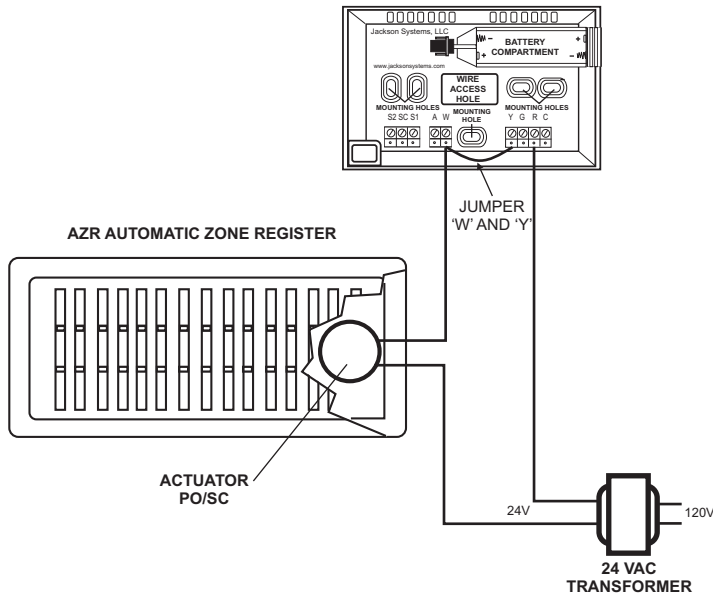

#### FEATURES:

- Attractive
- Easy to install
- Easy to wire
- Made of high impact plastic
