

## TECH TIPS

**PRODUCT:** Refrigerator  
**TIP VERSION:** REF02-003  
**MODEL:** RS2533SW, RS2555SW,  
RS2555SL, RS2577SW & RS2577SL

**SUBJECT:** Water leaking at the filter.

---

**SYMPTOM:** Water leaking at the filter.

**REMARKS:** If the filter is installed incorrectly, it will leak water.

**REPAIR:** Please make sure you line up the filter correctly to avoid water leak.

---

**INTSRUCTIONS:** 1. Turn the water filter 1/2 turn counterclockwise and pull it down.  
2. To install the filter, align the indication mark (unlock position) and push it up while turning 1/2 turn clockwise until the lock position is aligned. Do not over tighten.

**Note:** If the filter is removed, you will still get water to the icemaker and water dispenser.
