

CABIN AIR FILTER REPLACEMENT

Recommended Replacement Interval: 15,000 miles under normal operating conditions.

CADILLAC XTS '13

Installation Time: 10min

Tools needed: Screwdriver

Location: Behind the glove compartment

1. Lower the glove compartment.
2. Remove the screw attached to the glove compartment tray and remove.
3. Locate the cabin filter access door and remove.
4. Remove the filter from the housing, making note of orientation and positioning notch on the filter.
5. Install the new filter and reassemble in reverse order.
