

CABIN AIR FILTER REPLACEMENT

Recommended Replacement Interval: 15,000 miles under normal operating conditions.

***ESCALADE, SILERADO/SIERRA 2500HD/3500HD, TAHOE/YUKON,
SUBURBAN/YUKON XL '15***

Installation Time: 5-10min

Tools needed: Screwdriver

Location: Behind the glove compartment

1. Open the lower glove box door.
2. Remove the four screws from around the lower glove box.
3. Close the lower glove box door and pull the frame to remove the entire unit.
4. Release the two tabs holding the service door to open.
5. Remove the filter from the housing, making note of orientation.
6. Install the new filter and reassemble in reverse order.
