

CABIN AIR FILTER REPLACEMENT

Recommended Replacement Interval: 15,000 miles under normal operating conditions.

2015 Ford F-150

Installation Time: 5-10 min

Tools needed: Screwdriver

Location: Behind Glove Box

1. Open Glove Box
2. Disconnect the damper on the right side by pulling it towards you and out.
3. Push in the side tabs to lower glove box.
4. Remove the rubber dashboard trim above the glove box.
5. Unplug the glove box sensor on the right side.
6. Remove the upper glove box panel by removing the retaining screws and snaps.
7. Pull off HVAC cover.
8. Replace cabin filter noting air flow direction.
9. Reassemble.
