

CABIN AIR FILTER REPLACEMENT

Recommended Replacement Interval: 15,000 miles under normal operating conditions.

'08 – '07 Hyundai Elantra

Installation Time: 15 min

Tools needed: None

Location: Behind the glove compartment

1. Open the glove box, locate the support rod on the right and disconnect by disconnecting the small snap holding it in place.
2. Inside of the glove box there are two stoppers, remove by pulling outward, it may be necessary to partially close the glove box to do this.
3. Once the stoppers are removed the glove box should hang freely and you should be able to locate the filter housing.
4. Remove the cap to the filter housing and slide out the old filter.
5. Replace old filter with new filter making sure the flow arrow is pointing in the correct direction.
6. Reassemble in reverse order.
