

CABIN AIR FILTER REPLACEMENT

Recommended Replacement Interval: 15,000 miles under normal operating conditions.

FORD FOCUS '12

Installation Time: 5-10 min

Tools needed: none

Location: Behind the dash

1. Look up underneath the passenger footwell near the firewall.
2. Locate the cover that hides the fuse box and remove by squeezing the two black fasteners.
3. Locate cabin air filter access door and remove by squeezing the two blue latches.
4. Remove the filter from the housing, making note of the air flow.
5. Install the new filter and reassemble in reverse order.
