

PHOENIX RESTORATION PRODUCT FAMILY

EVAPORATIVE DRYING

Phoenix Axial Air Movers with FOCUS™ Technology

- Highest velocity where you need it.
- All the features you want.
- Low Amps
- Best Warranty
- Duplex Outlet with GFCI
- Long-life Motor
- Lightweight, Rugged and Stackable

LOW GRAIN REFRIGERANT DEHUMIDIFICATION

200 MAX

- 133 pints/day @ AHAM (7.5 amps)
- Multiple Filter/Ducting Options

300

- 176 pints/day @ AHAM (12 amps)
- Highest capacity LGR on the market

**Over 10 Years of
Proven LGR Performance**

HEPA AIR SCRUBBERS

Guardian

- True 1400 cfm
- Optional Carbon Filtration
- Built-in Manometer
- Multiple Ducting Options

Mini-Guardian

- Highly-efficient 2-amp motor
- True 415 cfm
- Optional Carbon Filtration

PERFORMANCE MONITORING

Meters and Data Loggers

Precise monitoring allows you to control the restoration process.

- Fastest and Most Accurate Readings
- Lightweight, Durable

Featuring *Patent Pending*
FOCUS™ Technology.

The Phoenix Axial Air Mover — There's *NO* Competition

FOCUS™ Technology Delivers

Performance

- **FOCUS™ Technology** revolutionized evaporative drying by producing air velocities up to 4x greater than competitive products
- Focused velocities 0 to over 23.5 feet
- **FOCUS™ Technology** directs air flow towards problematic corners (wall & floor), carpet and wall, or subfloors
- Focus corner drying reduces: secondary damage claims, side-effects of trapped humidity like fungi, mold, mildew or structural damage
- 3000 cfm, long-life 2-speed motor, featuring Permawick® Lubrication
- Low noise, quiet operation

Packaging

- LLDP - Linear Low-Density Polyethylene housing
- Lightweight and compact
- Washable and chemical resistant
- Stacks easily for storage or transport
- Ergonomic handle
- Colored *Restoration Red* for high visibility.

Protection

- Sealed power-on switch and illuminated indication lamp.
- Automatic hour meter displays site run time
- On-board power management features:
 - Circuit breaker protects air mover and attached devices
 - Breaker prevents nuisance visits to the junction box
 - GFCI protection promotes operator safety in wet applications
 - Duplex AC outlet allows inter-connection of up to four axial air movers
- 20 ft AC cord with cord management

Featuring *Patent Pending* **FOCUS™** Technology.
