

ADVANCED DRYER BOOSTER FAN MODEL DBF4XLT

FEATURING WALL MOUNT INDICATOR PANEL

Fantech introduces the most advanced Dryer Booster Fan in the industry ... the DBF4XLT.

- Designed to meet CSA T.I.L. No. G-48.
- Features German manufactured EBM enclosed motor with self-cleaning backward curved impeller.
- Capable of maintaining an air velocity of 1200 fpm in duct systems up to 130 feet.
- Includes wall-mounted, low voltage panel designed with LED light to indicate normal operation or alert if fan loses power, the duct is blocked, motor locked or low speed conditions.
- Kit includes fan with integrated airflow sensing switch, mounting bracket, wire, quick-connect/disconnect duct collar, indicator panel and 5 1/2 ft long 120 Vac power cord.
- Five Year Warranty

- Easy to Install
- Automatic Operation
- Patented Pressure Sensing Switch Technology
- Wall Mount Indicator Panel

Ideal for residential/commercial applications:

- Installations that exceed the dryer manufacturer's maximum duct length.
- Installations where stack effect prevents the proper operation of a dryer.
