

# **FEATURES**

- Compact design
- Backward curved blade motors
- Electrostatic filters (washable)
- Aluminum heat recovery core
- External screw type dry contacts
- Airflow balancing using Fantech's "TRUE" motor adjustment feature
- Improved core guide channels for easy removal of core

# **OPTIONAL CONTROLS**

• EDF 1	<ul> <li>On/Off, Low, High Speed Operation</li> </ul>
	and 20 min. On/40 min. Off Cycle Timer
• RTS 3	<ul> <li>Intermittent Bathroom Timer with Settings</li> </ul>

- EDF 5 Digital multi-function wall control
- with recirculation
- EDF 2 Digital multi-function wall control
- MDEH 2 Mechanical low voltage dehumidistat with On/Off switch
- MDEH 1 Mechanical low voltage dehumidistat
- RTS 2 15 Minute pushbutton timer
- AQS 1 Air quality sensor

#### WARRANTY

- 7 year on motors
- 5 year on parts
- Lifetime on core (limited)

# Heat Recovery Ventilator Model SHR 1505R

## **SPECIFICATIONS**

**CASE** 24 gauge galvanized steel. Powder coated finish, antique white. Insulated with 1" (25 mm) foil-faced high density polystyrene foam to prevent condensation and meet the requirements of the Underwriters Laboratories 94HF.

**MOTORS** Two (2) German-engineered, factory-balanced ebm<sup>™</sup> motors with backward curved blades. Motors come with permanently lubricated sealed bearings guarantee long life and maintenance-free operation. Seven (7) year warranty.

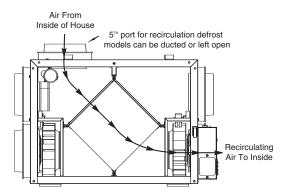

**FILTERS** Two (2) Washable Electrostatic Panel Type Air Filters, 8.5" (216mm) x 15" (380mm) x 0.125" (3mm).

**CORE** A aluminum heat recovery core configured for an efficient cross-flow ventilation. Core is  $9" \times 9"$  (229 x 229 mm) with a 15" (380 mm) depth. Cores are manufactured to withstand extreme temperature variations.

**CONTROLS** External three (3) position (Low/Stand By/Medium) rocker switch that will offer continuous ventilation. Fantech offers a variety of external controls. (see optional controls)

**AIRFLOW BALANCING** Screw type dial on electrical box allows supply airflow to be adjusted to match exhaust airflow.

**DEFROST** During the defrost sequence, a motorized damper temporarily blocks the incoming fresh air stream so that the warm air from the house can circulate through the HRV. The exhaust blower shuts down and the supply blower switches into high speed to maximize the effectiveness of the defrost strategy. During this cycle, household odors from the kitchen or bathroom are prevented from entering the home and the unit will not create negative pressure.

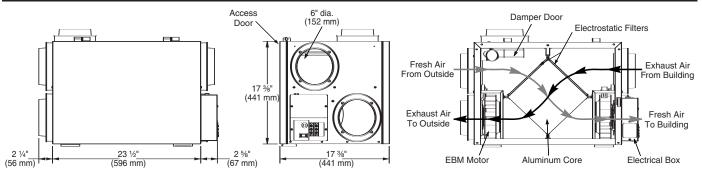

**INSTALLATION** Unit is typically hung by using installation kit supplied with unit. Mounting bolts provided on top four (4) corners of unit.

**SERVICEABILITY** Core, filters, motors and drain pan can be easily serviced through latched access door located on front of the cabinet. Core conveniently slides out with ease on an improved railing system. Electrical box, placed on the outside of the unit, can also be easily accessed.

Fantech, reserves the right to modify, at any time and without notice, any or all of its products' features, designs, components and specifications to maintain their technological leadership position.

### Dimensions & Airflow - All units feature three foot plug-in power cord with 3-prong plug.

## Specifications and Ratings

- Model: SHR 1505R
- Total assembled weight: 45 lbs
- Cabinet: 24 ga. steel w/ powder coat finish
- Motors: ebm motor w/backward curved blades
   Filture 2 was hable algebra static filture
- Filters: 2 washable electrostatic filters 8.5" (216mm) x 15" (380mm) x 0.125" (3mm)
- Insulated with 1" (25 mm) foil-face high density polystyrene foam to prevent condensation and meet the requirements of the Underwriters Laboratories 94HF.
- Core: Aluminum 9" (229mm) x 9" (229 mm) x 15" (380 mm)
- Supply & exhaust ducts: 6" (152.4mm)
- Mounting: Suspended by chains & hooks

• Electrical requirements:

Volts Frequency Amps Watts 120V 60Hz 1.3A 150W <sup>High</sup> 3' plug-in power cord w/ 3-prong plug
